US Beltie News

Greg Hipple, Solon, Iowa

I am Greg Hipple; I currently serve as past president, and secretary of the Belted Galloway Society, Inc. I have been a member of Council for two terms, I have held every elected office within the Society, and I had the privilege of serving as president in 2016 and 2017. I currently serve as treasurer of the Belted Galloway Foundation, Inc.

In 1993, my wife Pat and I bought our first Belted Galloway heifer and we became members of the Society. Over the next ten years we began the search for foundation stock to build our farm that we named Sutliff Belties. We are a family farming operation that consists of a herd of 20 Belted Galloway cows, from which we raise and sell breeding stock. We also feed out steers for beef. We raise corn, soybeans, and hay on 390 acres, some of those acres being in our family for over 100 years. We also maintain a herd of 20 commercial cows. We are located in east central Iowa, in the Northeast corner of Johnson County, between the cities of Iowa City and Cedar Rapids on the banks of the Cedar River at the west end of the Historic Sutliff Bridge. The bridge is the oldest Parker Truss Bridge in Iowa. We always welcome visitors.

During the time we began securing our foundation animals, we had to limit our search to the Midwest region because I worked nights as a Deputy Sheriff, Pat as a banker, and our kids were in sports, school, and 4-H. Free time was a premium. Through our membership in the Society, we found out about the Great Lakes Belted Galloway Association. We joined, became active, and met some of the best friends we have. I served two terms as a member of their board of directors, with four of those years serving as secretary. This fueled

my enthusiasm for serving further in other areas of promotion for our breed. Becoming involved with the Belted Galloway breed opened many doors for us. Pat served as an associate junior leader for Area 5; we hosted a semi-annual Belted Galloway show sponsored by the GLBGA called Belties Unlimited from 2008 through the last one in 2017. Pat did the hard part. She handled entries, prizes, judges, plus all the intricate details that I never thought of like refreshments, food, and comfort of the participants and those in the audience. I did my best to assist her by handling the labor part, like set up, tear down, and clean up. We had a lot of fun and did our best.

I also had an opportunity to serve a (one) three-year-term as a member of the World Beef Expo Board of Directors. This was a once in a lifetime opportunity for me to see how a world class show is put on and all the work involved. 2017 was the 25th anniversary of the World Beef Expo and the Great Lakes Belted Galloway Association. It was a thrill to host the Belted Galloway Society Annual Meeting in conjunction with these events. Twenty-five-years later, we have been able to attend Belted Galloway events all the way from the Midwest to New England, and now look forward to attending an event in Texas in the spring of 2019. We are members of every regional

About Classifieds

Your classified's required contact information — name, farm, location, phone and email. All classified ads are automatically placed on beltie.org with a two-month limit on classified insertions. Photos are FREE when placed on beltie.org. One photo per animal. Email ads to executivedirector@beltie.org or by fax (608) 527-4811 or phone (608) 220-1091. We encourage members to submit ads before the 25th of the month to be included in the upcoming issue.

About bulls ... Before advertising a young male be sure he is well conformed, tracks properly, has good legs and feet, and exhibits good weight gains. We recommend including data on his birth weight, 205-day weaning weight, and yearling weight. If he's reached breeding age (around 16 months), it's definitely a plus to have his semen checked for quantity and motility, and uniform scrotal development (two normal sized testicles). **It is required that registration numbers be included on bulls advertised for sale in the classifieds.**

Advertise in the 2018 Journal

An ad in the Journal is advertising exposure at all Belted Galloway events and shows across the country. Every new member of the Belted Galloway Society receives the latest issue. Journals are available free-of-charge to help members promote the Belted Galloway breed. We encourage you to be a part of the 2018 Belted Galloway Journal—we will design your ad at no additional fee!

The Belted Galloway Journal is an annual publication of the Belted Galloway Society. The Journal has become the breed's most valuable marketing literature. The Journal is distributed at state and county fairs, regional beef expos, national livestock shows, and anywhere the Belted Galloway Society can promote the breed!

We believe:

- Belted Galloway cattle are the best suited beef breed for a growing population of individuals who are interested in living a rural lifestyle and raising tender and nutritious beef.
- Belties are a beef breed that is ideal for small acreage beef production because of their moderate size plus their utilization of grasses more efficiently.
- Belted Galloway cattle are a BEAUTIFUL breed.

The Belted Galloway Society is committed to:

- Promote the Belted Galloway breed of cattle.
- Preserve the purity of the breed.
- Provide mentoring opportunities to our youth

Hipple message continued

group affiliated with the Belted Galloway Society through which we have met hundreds of people who have like interests and values everywhere we have traveled. We are always so impressed with the hospitality of all. The kindnesses of the members are not lost on us.

The next chapter is opening for Pat and me here at Sutliff Belties. Our two children and their spouses have brought four grandchildren into our lives. Just as our kids enjoyed livestock and the work and joy they entail, we look forward to this next generation, and the enthusiasm and excitement they bring to the farm. My biggest worry is being able to keep up with them.

I have truly enjoyed these last years of service to the Belted Galloway breed and the members of the Belted Galloway Society. I continue to be completely amazed by the generosity and willingness of people to step up and give so much of their time and money to further and promote this unique breed of cattle. We should all be proud of the advances made these last few years in the furtherance and acceptance of our chosen breed of cattle to move further into the spotlight of American agriculture and the cattle industry. I for one am thankful to have been able to experience it.

The 2018 National OPEN Belted Galloway Show IS offering \$5000 IN EXHIBITOR PREMIUMS!

2018 Belted Galloway Show Rules

National Shows, Sale and Annual Meeting Update

President Dawson Masters

Exciting news came in from the North American International Livestock Exposition last month. Exhibitors showing at the 2018 Belted Galloway National open show will be awarded \$5000 in premiums! Our time-schedule for the event has not been determined at this writing. We will have the annual meeting, the Premium Sale, and the national shows — during the week of November 12-16. We will update the membership with dates and information as it becomes available to us.

Belted Galloway Junior Association

Janie Tripp Chairman of the BGJA

I cannot believe it is June and summer is upon us. Here in the Deep South, many of the juniors have been showing all fall and spring. Our summers are very hot and we take a break from showing during the extreme heat.

I am pleased to announce that the third annual BGJA Jackpot Steer show will be held during the Kathi Jurkowski Junior Show in Louisville, KY in November. There will be very rewarding incentives to show a steer. The Grand Champion steer will be awarded a \$1000 cash prize and the Reserve will win \$500! Purebred, purebred mismarked, and Appendix steers will continue to show together in the Jackpot Show.

Also returning to Louisville is the BGJA photography contest. Submit 1 MB images by email to Joanna Posey at five_oaksfarm@yahoo.com. If you have questions contact Joanna at (601) 748-5802. Deadline for submissions will be November 1, 2018.

As a reminder, lease agreements must be on file with the CLRC by July 1, 2018. Junior members must have their 2018 dues paid to participate in any Society sponsored junior events and shows.

1. NAILE will collect an entry fee of \$50/head entered and \$15 for Junior showmanship. Entries should be made through NAILE online system at livestockexpo.com or mail entry forms to NAILE, P.O. Box 37130, Louisville, KY 40233.

2. Exhibitors must be members in good standing with the Belted Galloway Society, Inc.

3. Animals must be registered or recorded in the Belted Galloway Society Herd Book or other Society recognized Herd Book. Animals must be in good physical condition and typical of the breed in conformation. "Good physical condition" shall include but not be limited to the absence of any infectious condition such as ringworm or warts.

4. Original registration or recordation papers will be required at check in. Any animal without a legible tattoo will not be allowed to show.
5. Bulls over 12 months of age are required to wear a nose ring, either temporary or permanent and must have a lead attached when being lead.
6. All bulls exhibited must have two descended testicles. No cryptorchid bull will be allowed.
7. Bulls exhibited at 16 mos. of age or older must be accompanied by a certificate documenting they have passed a bull soundness exam.
8. Heifers exhibited born on or before December 31, 2016 (not in the cow/calf classes) must be accompanied by a certificate of pregnancy by a licensed veterinarian or verified by an accredited pregnancy blood test, or accompanied by a original certificate of embryo recovery. (this is subject to random spot checks)
9. Females that are 30 months or older must show in the cow/calf class with a calf at side. Calves exhibited in the cow/calf class cannot be over 230 days of age.
10. Open show only: Animals must be purebred and registered in the Herd Book to qualify for the purebred show. This will include purebred, properly marked heifers, bulls and purebred steers and purebred, mismarked heifers.
11. Percentage Belted Galloway animals must be recorded in the Herd Book to be eligible to be exhibited in the percentage Belted Galloway show which would include percentage heifers and steers.
12. Percentage heifers and steers may not be shown in group classes.
13. The order of the show will be purebred, properly marked heifers, cow/calf, bulls and group classes, followed by purebred steers, percentage steers, purebred, mis-marked heifer and percentage heifers.
14. All Grand Champion and Reserve Champion animals shall be DNA verified at the Society's expense.
15. To compete in Junior Showmanship classes with an animal, the Exhibitor must be a Junior member of the Society and be 8 years of age or older. **No bulls over 7 months** of age may be used in showmanship and any animal deemed unruly or dangerous while in the ring can be dismissed at the judge's discretion. Only one handler per animal will be allowed in the ring during Showmanship.
16. Substitution: Should any entry be substituted for another no new fees are required. However registration papers must be submitted with the request for substitution. Substitutions must be made by November (*to be announced closer to the date.*)
17. The show committee reserves the right to split over-enrolled classes and combine under-enrolled classes.
18. The show committee reserves the right to disqualify any animal that has been fitted in an unethical manner. Unethical fitting shall include any injection of gas, solid or liquid under the skin to alter conformation, any additions of artificial tail heads or polls, any surgical alteration of the animal's shape, as well as any dyeing of coloring which alters the animal's natural color pattern. Artificially filling animals internally (pumping) is strictly prohibited.
19. Exhibitors are responsible for making sure entries are in the staging area before their classes are called. Exhibitors that do not enter the show ring within 3 minutes of the announcer's final call, forfeit the right to compete in that class.
20. Decisions of the judges are final except where mistake, fraud or misrepresentation is proven. Complaints, if any, must be tendered in writing to the Show committee. cost of any resultant investigations shall be borne by the complainant if allegations are dismissed, or by the exhibitor against whom the complaint was issued, if allegations are proven correct.
21. All protests must be made within 24 hours of the show.
22. Interference with or disrespect shown to the judge by any exhibitor during the performance of the judge's duties shall be deemed grounds for immediate disqualification.
23. Exhibitors must obey all rules of the Belted Galloway Society, Inc. and the North American International Livestock Exposition or be disqualified. Failure of exhibitors to follow the rules and release times shall not be allowed back the next year.
24. Exhibitors will be able to set up (*to be announced closer to the date*)
25. Unattended animals must be double-tied with halter rope plus neck rope or two halters, two ropes.
26. All animals will be required to be weighed and measured. No exceptions.
27. Premiums are **not** offered to steers shown in the open show.

2018 Mandatory Testing Requirements

All bulls born on or after January 1, 2018 are required to be DNA and hypotrichosis tested before registration. Fees for the mandatory DNA and hypotrichosis testing are \$65. The Executive Director's office will generate the paperwork for samples to be submitted to UC Davis.

Bulls born on January 1, 2018 or after, may be registered with the CLRC for \$30 *after the DNA and hypotrichosis testing are completed*. Council reduced the registration fee to \$30 for all bulls born on January 1, 2018 or after to accommodate the mandatory testing.

The Executive Director's office will notify the breeder with the test results and an authorization for registration.

Bulls born before January 1, 2018 are not required to be DNA or hypotrichosis tested and fees for registration will remain \$50.

Stages of Parturition

Glenn Selk, OSU Emeritus Extension Animal Scientist

During calving, an increased understanding of the parturition process is always helpful. The more we understand about the physiology of the process, the more likely we are to make sound decisions about providing assistance. Parturition or "calving" is generally considered to occur in three stages.

Stage One

The first stage of parturition is dilation of the cervix. The normal cervix is tightly closed right up until the cervical plug is completely dissolved. In stage one, cervical dilation begins some 2 to 24 hours before the completion of parturition (2 to 6 hours would be most common). During this time the "progesterone block" is no longer present and the uterine muscles are becoming more sensitive to all factors that increase the rate and strength of contractions. At the beginning, the contractile forces primarily influence the relaxation of the cervix but uterine muscular activity is still rather quiet. Stage one is likely to go completely unnoticed, but there may be some behavioral differences such as isolation or discomfort. At the end of stage one, there may be some behavioral changes such as elevation of the tail, switching of the tail and increased mucous discharge. Also relaxation (softening) of the pelvic ligaments near the pinbones may become visually evident, giving a "sunken" appearance on each side of the tailhead. Checking for complete cervical dilation is important before forced extraction ("pulling") of the calf is attempted.

Stage Two

The second stage of parturition is defined as the delivery of the newborn. It begins with the entrance of the membranes and fetus into the pelvic canal and ends with the completed birth of the calf. So the second stage is the one in which we

really are interested. This is where we find all of the action. Clinically, and from a practical aspect we would define the beginning of stage two as the appearance of membranes or water bag at the vulva. The traditional texts, fact sheets, magazines, and other publications that we read state that stage two in cattle lasts from 2 to 5 hours. Data from Oklahoma State University and the USDA experiment station at Miles City, Montana, indicate that stage two is MUCH shorter. In these studies, assistance was given if stage two progressed more than two hours after the appearance of water bag at the vulva. The interesting thing about the data was that the heifers calving unassisted, did so in about one hour after the initiation of stage two, and mature cows calved within an average of 22 minutes of the initiation of stage two. Those that took longer needed assistance. These and other data would indicate that normal stage two of parturition would be redefined as approximately 60 minutes for heifers and 30 minutes for adult cows. In heifers, not only is the pelvic opening smaller, but also the soft tissue has never been expanded. Older cows have had deliveries before and birth should go quite rapidly unless there is some abnormality such as a very large calf, backwards calf, leg back or twins. If the cow or heifer is making good progress with each strain, allow her to continue on her own. Know your limitations. Seek professional veterinary help soon if you encounter a problem that cannot be solved easily in minutes.

Stage Three

The third stage of parturition is the shedding of the placenta or fetal membranes. In cattle this normally occurs in less than 8 to 12 hours. The membranes are considered retained if after 12 hours they have not been shed. Years ago, it was considered necessary to remove the membranes by manually "unbuttoning" the attachments. Research has shown that manual removal can be detrimental to uterine health and future conception rates. Administration of antibiotics usually will guard against infection and the placenta will slough out in 4 to 7 days. Contact your veterinarian for the proper management of retained placenta.

MICHIGAN. Two registered black Belted Galloway heifers for sale: Hidden Peninsula Daisy, DOB 6/22/17, and Hidden Peninsula Blossom, DOB 7/03/17. Sire is Countyline Eivan 40153-B. Grandsire is Platinum Lifetime Award winner Southdown Unique 11781-B. Both heifers have great conformation, show quality bloodlines, and are weaned and ready to go. Also selling two registered black Belted Galloway heavy bred four-year-old cows that are due in May/June. Contact Brad Smith at Hidden Peninsula Farm, Paw Paw, MI for details and pricing. (269) 501-1625 or bsmith_eпа@yahoo.com.

NORTH CAROLINA. Black bull, red gene carrier. Rockwater Cooper 41864-B. DOB 5/1/16. Gentle, well marked bull located in central NC. Rockwater Farm, Ann Furr, Salisbury, NC. (704)798-3460 drfurr611@gmail.com.

VIRGINIA. Great starter herd – small registered herd dispersal – retiring from breeding business. Available two dun bulls, Goose Creek Silver Bullet 10241D, 12-years-old, and Red Gates Silver Ice 41969D, 16-month-old (perfect to replace Silver Bullet in the future). Also, two black pregnant cows ages 12 and 5 years, a dun heifer age 20 months (exposed to Silver Bullet for breeding), and two dun steers ready for finishing for freezer beef. Entire herd has championship genetics in pedigree, established Silver Lifetime Award Goose Creek Sterling 6101D, established Gold Lifetime Award Goose Creek Spock 4705B, and the Georgia National Grand Champion Goose Creek Barnabas 8063B. All have very friendly dispositions and are very manageable herd animals. Contact Dean/Judi Stenzel, Red Gates Farm, Lexington, VA (540) 261-3455 or email jastenzel@comcast.net for photos or additional information.

NEW HAMPSHIRE Mature bulls for sale. Holbrook Hill Don Diego 40302-B. Don Diego is out of Holbrook Hill's most prolific and award producing female, Anderson Hill Contessa, with grand champion Zulu Warrior the Third on the topside. This coming two-year-old weighs in at approximately 1500 pounds and has a good bit of growth to go. Halter broken, gentle, will add substance and form to any herd. Zulu Warrior III was Supreme Champion of all breeds at Fryeburg and a Gold Lifetime Award winner. Anderson Hill Contessa is responsible for more blue ribbons than any other Holbrook Hill animal and a Platinum Lifetime Award winner. DOB 5/15/16. Holbrook Hill Darwin 41147-B. Add evolution to your herd with Holbrook Hill Darwin. Darwin is sired by the Scottish Grand Champion Mochrum Kingfisher on the topside and Holbrook Hill Afi Komen on the bottom side. Afi Komen is a Grand Champion daughter out of Anderson Hill Contessa. Darwin will be moderate in frame and outstanding to use on first calf heifers. DOB 10/14/16. Both come with a full breeding guarantee. Steven Silberberg, Holbrook Hill Farm, Bedford, NH. (603) 472-2205 or hhf8@aol.com.

OKLAHOMA. Nice young registered bull for sale. Rainbow Valley Tundra 42246-B. DOB 6/23/16. Excellent pedigree, nice conformation and great disposition. For more info, contact Doug and Barbara Swindell, Rainbow Valley Ranch, Wellston, OK. (405) 659-8731. doug@eatonquade.com.
